UNINET[®]
DTF[™] 1000

Exceptional printing quality “ready to wear.”

UNINET[®]'s ink-based direct-to-film digital transfer printing system with a roll feeder is uniquely suited for the short-volume production of exceptional quality full-color print transfers for the digital apparel decorating market.

Ready to wear meets designer quality.

The **UNINET® DTF™ 1000** is an ink-based direct-to-film digital transfer printing system with a roll feeder capable of printing up to A3+ or 13 inches wide.

It is built to perform for the **short-volume production** of exceptional quality and full-color print transfers for the digital apparel decorating market, which can be applied to light and dark-colored garments.

High-Resolution Printing and White Overprint® capabilities.

The **UNINET® DTF™ 1000** printing system has a high-definition, professional inkjet printhead with a wide color gamut for crisp, stunning print output. It also incorporates a technology that automatically lays down a combination of CMYK colors and white overprint® capabilities to produce professional-quality and sharp prints in one pass exponentially.

Good things come in smaller packages.

This 13" print width, desktop-sized DTF printing equipment is compact yet powerful, expertly configured for manual DTF powder application, and capable of producing simple or intricate, colorful weedless digital transfers in a single pass.

As an optional upgrade, the **DTF™ 1000** printer can be paired with the ***UNINET® DTF™ 1000 Auto-Powder Unit** to enable fully automated powder application, curing, and drying for a comprehensive printing solution, transforming it into the most cost-effective DTF printing device on the market.

* UNINET® DTF™ 1000 Auto Powder Unit is sold separately.

From apparel decoration to fashion statement in the blink of an eye.

Envision having a print shop on your desktop to create fashionable custom-made apparel, accessories, home décor, and more, using your designs to produce digital transfers that are stretchable, durable, soft-hand, and vibrant in color. Easily print full color and white graphics for application to virtually any textile. The **UNINET® DTF™ 1000** is built to make a statement on behalf of your business from day one.

UNINET® DTF™ 1000 System includes:

- **UNINET® DTF™ 1000** Digital Transfer Printer.
- **PRINTHEAD**
A high-definition and professional inkjet Printhead.
